

simplifying successful water solutions.

IMPORTED 2 STAGE / 3 STAGE UNDERSINK UF MICROFILTER

IMPORTED 2 STAGE / 3 STAGE UNDERSINK UF MICROFILTER

FEATURES:

- ◆ Quick screw type : just twist filter after shutt off water supply
- ◆ FDA compliant material : assembled with food grade material
- ◆ Safe design over pressure
- ◆ Water and energy saver

SPECIFICATIONS:

- ◆ 2 stage : carbon filter + UF membrane filter
- ◆ 3 stage : sediment (PP) filter + carbon filter+ UF membrane filter
- ◆ **UF membrane filter :**
 - Flow rate : 0.5 GPM (1.9 L)
 - Working pressure: 7-60 PSI (0.5-4.2 kgf/cm²)
 - Temperature : .33 100° F (4-38° C)
 - Capacity : 3000 gal (11,400 Lts.)
 - P H range : 5-10 hardness below 300 PPM
 - Service life : 12 months
 - Evaporated remains : below 500 PPM
 - Particle size cut off : < 0.03 micron)
