

simplifying successful water solutions.

MR. WATER

MR. WATER

FEATURES:

- ◆ Reverse osmosis technology for drinking water
- ◆ Removes bacillus, optically variable odor, chlorine, organic chemical toxicity and heavy metal
- ◆ Tastes better, no boiling required
- ◆ All the parts of the filtration system have passed NSF (National Sanitation Foundation) standards
- ◆ Specially designed housing, rust proof
- ◆ Booster pump, easy for installation and servicing
- ◆ Wall mounted model
- ◆ Can work w/o pump where inlet pressure is sufficient
- ◆ Flash light for indicating filter life
- ◆ Storage tank can be attached if required

SPECIFICATIONS:

- ◆ Pressure : DC 220V / 60 HZ
- ◆ Max. loading current : < 1.2A
- ◆ Capability : 50 gallons / day
- ◆ Capacity of storage tank : 4 gallons (optional)
- ◆ Power consumption : < 12 W
- ◆ Max/min pressure of import : 50 PSI / 6 PSI
- ◆ Max. working pressure : 125 PSI
- ◆ Total weight : 15 kg
